

## Flex-O-Bed

can be positioned against any wall, preventing dangerous gaps and allowing for a space saving 76 inch deep footprint.

**Compare these great features against all competition**

Easy-operating seat pulls up and out, back drops down.

Flex-O-Bed opens a surface that can be economically used as a sleep surface.

Optional queen-size air mattress has self-contained motor, with easy operating hand wand control.

Inflates/deflates in 60 seconds.

28H x 68W x 34.5D (also available 74W)

Built for Motorized and Towable applications.

Weight: Flex-O-Bed weighs 7-10 pounds less than competition

Wall Hugger: unit slides all the way to side wall; no dangerous gaps

Puncture-free air mattress configuration

Unique, patent pending Flex Deck construction.
